

Hot Sausage

A summer favorite!

Get your favorite hot sausage or mild sausage, then grill them babies on the grill.

Cut up two peppers, one green and red. Fry them with about 1 tablespoon of olive oil. Once they start getting tender, add a half of chopped onion and cook as well. Cook to your liking. Top on sausage sandwich.

NOTE: Another way to do this if you don't grill, is add sausage in a crockpot instead. Top with one jar of a good brand tomato sauce (24 Oz), then add peppers and onions. Cook on high for about 4 hours.
