Orange Julius

□Orange Julius
1 (12 oz.) can frozen orange juice concentrate, partially
thawed
1 cup milk
1 cup water
¾ cup "pulp" orange juice (If you don't have this, you can
still make it without)
1/3 cup sugar
1 tsp. vanilla extract
2 ½ cups ice cubes

Put all your ingredients into the blender. I put the liquids in first, then the ice, because it seems to mix it up better. Poor into glasses and place in freezer about 20-30 minutes to chill. Slice oranges and place on rim for festive beverage. Enjoy this frosted yummy goodness on a fresh spring day with your windows up and birdies chirpin!
